EASY MAINTENANCE

Desia even makes work easier; maintenance operations are extremely simple thanks to the ergonomic design of the components and the advanced software tools.

Physical Daily cleaning is made simple with the easy to remove components, such as the coffee waste tray and liquid tray that can be extracted even with the door closed.

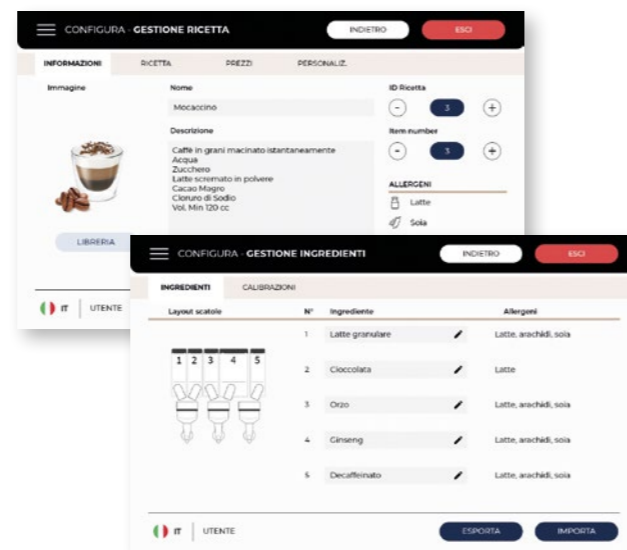

Digital The best part, however, is that the guided procedures shown on the screen explain the various stages of cleaning through intuitive animation. And to make everything quicker, the menu offers you direct access to maintenance management.

EASY CONFIGURATION

Do you know your customers' tastes? Satisfy any desire; with easy and rapid machine configuration, you can create the ideal range of drinks.

Physical Desia lets you choose between different machine configurations to satisfy all tastes. You can also decide on coffee capacity, with a standard 1.3 kg hopper or a larger 2.3 kg hopper. You can also offer your customers cappuccino with fresh milk, thanks to flexible milk-management solutions.

Digital Overall machine configuration is carried out directly on-board via the touch screen. Desia's new software offers you a simplified experience in line with phygital logic, allowing you to create tasty recipes, as well as a personalised graphic interface.

EASY INTERACTION

Physical The transparent coffee container valorises the quality of the coffee beans, and as well as being visually striking, the RGB LED lights inform the user of the machine status and whether any actions are required. The spacious open dispensing area can hold cups, glasses and jugs, while the retractable cup holder is an extra touch that is both functional and stylish.

Desia puts the user at ease, proposing intuitive and rewarding human-machine interaction.

Digital The 8" or 10" touch-screen interface offers customisable direct selection, as well as lending extra visibility to the products you want to promote. Drink personalisation is simple and intuitive, favouring upselling and increasing end-user satisfaction.

DESIA IS AVAILABLE IN TWO VERSIONS, S OR M, TO ADAPT TO ALL SERVICE REQUIREMENTS.

- 01 8" or 10" touch-screen interface
- 02 Transparent coffee container
- 03 Interactive RGB LED lighting
- 04 Spacious open dispensing area with retractable cup holder
